

Supplement to the user information

AquaControl +

Fill level measuring device and drinking water supply

Item-No.: 351021

8. Special functions:

a) Analogue outlet:

Your device has been fitted with an additional analogue pot. This port shows the percent values from the system control (0% -100%) by a voltage range from 0V to 10V. The following connection values apply:

Minimal apparent ohmic resistance	: 20K Ohm
Short circuit protection	: Yes
Short circuit current	: Approx 15mA
Cable length	: maximal 200m (shielded)

Note:

The system control is only capable of displaying whole percent values (no fractions). These are shown on the analogue signal display.
