

Supplement to the user information

„SILENTIO“ system control

Fill level measuring device and drinking water supply

Item no.: 351022

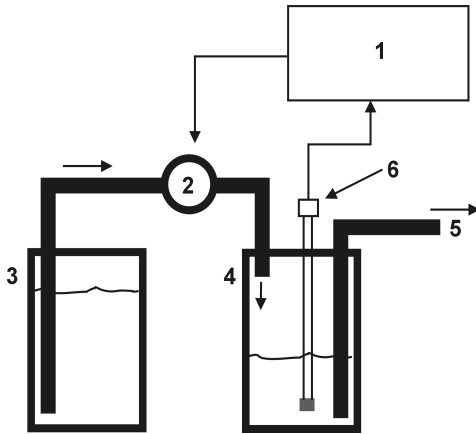

10. Special functions:

10. 1 Refilling:

10. 1.1 Description:

Your device is equipped with an additional refilling function. This function enables water to be pumped out of a secondary tank into the main tank. The switching points “Refill ON” and Refill OFF” may be adjusted per menu point in the usual way.

The additional pump must be fitted with its own separate device to prevent running dry.
